

PUMPS WHEN YOU NEED THEM.

EmpireEMCO's in-house dip tube assembly capability offers 3-4 week lead times on 28-410 lotion pumps made to your dip tube specification.

Our sustainable, turnkey solution reduces lead times so you can quickly fill your hard-earned space on the shelf! Because we have components in stock to assemble before shipping, you'll save time and money, reduce stress, and maintain the inventory you need to maximize sales.

Initial offering:

- > 28-410 Saddle Head lotion pump, 2 cc output 360 degree lock down
- > Fine ribbed & smooth
- > White or Black
- > Order quantities from 5m to 50m units

EmpireEMCO will:

- > Guide you in determining the right dip tube length
- > Provide a sample for approval prior to production

✔ **REDUCE YOUR LEAD TIME AND SUPPLY CHAIN RISK**

✔ **WE CAN EVEN PROVIDE THE BOTTLE FOR YOUR SOLUTION IN THE SAME SHIPMENT!**

This turnkey solution enables consumer brands to:

- > Get products on shelves faster
- > Optimize shipping and production costs
- > Reduce risk of supply chain delays
